Welcome to Carson Family Care Center. We are happy you have chosen us to be your new health care provider.

We understand that many of our patients have many medical conditions; however, it is our policy not to prescribe any controlled substances (ie- narcotic pain medications, certain anti-anxiety medications, and certain sleep aids) on the first visit. We also do not treat chronic pain conditions, and referral to specialists may be needed. We will also need to obtain records for review and then determine what medications are appropriate for you. This is to assure we give the best care to our patients.

Thank you for your understanding with this matter.
